

Comments on FCC's proposed MB Docket 04-233

The Christian radio stations in my area (K-Love, Bott Radio Network (BRN), and American Family Radio (AFR)) provide a great service to me, my family, and my local community. The talk shows on BRN & AFR, in teaching the Word of God, have helped me to become a better husband and father, as well as a better citizen of this great nation. Their shows have also kept me informed of what is truly happening in this nation, instead of buying into the lies that our enemies are trying to feed us. K-Love is a great station for my little ones to listen to, as I don't have to worry about them hearing any crude or lewd language or messages that are contradictory to my deeply held religious beliefs (yes, I am a Christian).

It goes without saying that I am opposed to this proposed MB Docket. In my view, it violates the First Amendment rights of the free exercise of religion and free speech. The First Amendment protects the free exercise of religion. The government must not be allowed to impose rules that violate it. Once our First Amendment rights are taken away, America will no longer be a nation of the people, by the people, and for the people, but will instead be a nation of the elite, by the elite, and for the elite. And once that happens, America as we now know it will be destroyed.

I pray that you will do the right thing, in the best interest of our nation. Reject this proposal, or let it be known that you helped to destroy the United States of America.
